## Understanding the Program

Ages are determined based on the athlete's age as of December 31 in the year of the competition.

All events are 'open gender' with males and females both able to participate.

Individual events and 2 x 30 double unders will be judged with medals awarded to NT athletes for 1<sup>st</sup>, 2<sup>nd</sup> and 3<sup>rd</sup> places. Interstate athletes scores are benchmarked against local skippers' results and awarded separate medals.

All other pair, team and group events are display/demonstration events.

The MC will announce when skippers should move to the 'marshalling area' to be ready for their events. Athletes should take note of the sessions they are participating in, so they ready when called for marshalling. Coaches will help skippers to find the station or floor in which they will compete. It is important skippers compete in the correct station as this is linked to the scoring system.
